

OUR MISSION

is to increase the awareness and treatment of learning and social disabilities in children and adults.

Educating parents and professionals empowers them to obtain the best interventions available to promote academic and social success.

What Parents Say:

Banyan Tree Educational Services

BANYAN TREE EDUCATIONAL SERVICES

*OUR GOAL is to build the
FOUNDATIONS and SKILLS necessary to
achieve SUCCESS in school and in life*

Banyan Tree Learning Center

can make a difference in the lives of students and adults with dyslexia, attention/focus problems, social and communication difficulties, and problems with executive functioning. Working 1 to 1, we use cutting edge, researched, brain-based tools and methods to provide cognitive training and address weak underlying processing skills which make learning slow, painful, and difficult. Schools focus on **what** students need to know, and we focus on **how** a person learns, strengthening the skills needed for learning with ease, working independently, and achieving academic success.

New research reveals that there are layers of functioning that affect all areas of learning, including *memory, processing speed, attention, planning, organization, auditory processing, language, reasoning and visualizing*. Our programs target these areas, transforming learning into a positive, successful experience for our clients.

Remediation for reading and spelling is structured, multisensory, Orton Gillingham based and includes Wilson Reading, Fast ForWord, and Lindamood Bell programs. Other interventions include Interactive Metronome, PACE, Cogmed, and Auditory Stimulation Training.

Student Success Services

Struggling Student Series—This educational series is offered for parents and professionals each year

Staff Training and Development—Staff is available for teacher training and staff development in schools

Parent Support Groups—Support groups help parents understand how family dynamics is effected by learning, social, and attentions issues

Learning Disability Awareness—Simulations for dyslexia and attention problems helps others experience and understand how it feels

Community Resources—Information is provided to parents for other services and resources in the community through PTA and community events

Scholarships—Funds may be available for adults with disabilities, or families who qualify for tuition assistance

Call to see how
you can help a child achieve success
or a young adult find a future!

Banyan Tree Foundations Academy

is a full day, special education school program which offers the same interventions and methods as our Learning Center, but more intensively. Students who may benefit from enrollment at Foundations Academy have significant challenges including dyslexia, attention, communication, sensory processing, social problems, or previous school failure.

Instruction is 1 to 1 for up to three hours daily using our *individual, intense and integrated* model. Small groups for 2 hours a day offer an opportunity for socialization, interaction, and project based learning. Some high school classes or credits may be obtained online. All curriculum follows California State Standards and is aligned with student's IEP goals.

Foundations Academy is intended as a short term placement and intervention. Students generally attend for one to two years to build the foundational, academic, and social skills needed to help them to return to their neighborhood school or their school of choice.

Foundations Academy is certified as a private, nonpublic school. Tuition assistance may be available.
