

## Time to Enroll in our AcademicCamp

### AcademicCamp is MORE than tutoring!

It is time to discover the reason for learning problems, and fix them NOW. Students attend daily, for 2-3 hours per day, for 3 - 12 weeks during the summer, depending on student needs. When students struggle, it is generally NOT a lack of motivation or laziness, but weak underlying processing skills. Focused, intensive work can train the brain to process /remember information more easily. Students work 1-1 with credentialed, specially trained teachers, who address the continuum of skills needed for academic success. Training includes reading, math, writing, and study skills **plus** underlying processing skills.

### Intensive AcademicCamp is the answer!

Our Summer Solutions can change the way your child feels about school! The **benefit of intensive training** during the summer is the amount of progress that can be made in a relatively short period of time, and without the distraction or overload that comes during the school year.

Students start with an **assessment** of learning and processing skills, academic levels and learning styles. Information processing skills may include **attention, memory, auditory and visual processing, processing speed, and language processing**. Inefficient or underdeveloped skills in any one of these areas can cause frustration, low self esteem, and poor academic performance. Just as it is important to train with intensity and consistency to get in physical condition, research has shown that the brain can be retrained to become more efficient with the same kind of intensity and consistency. This research is the basis of our AcademicCamps. Students will make significant gains in one summer!

**For the first time**, we now also offer a small **group + 1:1** option to create a ½ day program – the best of both worlds: individual instruction at small group rates! **Group + 1:1 sessions** start at \$1620 for 3 weeks (24 hours of instruction). Individual sessions for special programs and educational therapy are \$70/hr.

**Our sessions run from June 14-Aug. 26.** Fees are based on the number of hours enrolled, plus some materials or license fees where applicable. For new clients, the minimum **recommended** enrollment time is 6 weeks. Some programs may require a longer time. Take advantage of our sibling and military discounts. There is a \$150 nonrefundable deposit to enroll, which can go toward the assessment. Assessment special is \$\$195-\$295 (Reg.\$350-\$450) Good through June 1, 2010. **Find out what YOUR child needs!**

We also specialize in helping students who have a variety of learning disabilities, including **dyslexia, ADHD, autism**, difficulty with **executive functioning, language** processing, **sensory** processing and **cognitive** processing, including **nonverbal** learning disabilities.

## Summer Solutions at BT AcademicCamp!
